About JSPM

Jayawant Shikshan Prasarak Mandal (JSPM) was established in 1998 with the objective of creating centers of excellence for education in the field of Engineering, Medical, Pharmacy, Management and Computers. The management envisions that a social transformation can be brought about through the medium of dynamic education. The students are infused with an attitude of leading and winning without compromising on the moral and ethical values, nurturing them into holistically developed individuals.

Today JSPM is an conglomerate of more than 78 Institutes spread across six campuses providing quality education ranging from "Pre-school to Doctoral Research" for over 60000+ students in the metropolitan region of Pune.

About JSPM University Pune

JSPM University Pune, is a premier institution committed to providing excellence in higher education, research and innovation. Established with the vision of transforming society through quality education, JSPM University Pune is a dynamic hub for learning across diverse disciplines including Engineering, Management, Health Sciences, Humanities and Social Sciences. JSPM University is not only shaping future professionals but also driving impactful research and community development, making it a beacon of higher education in India.

Empowering Careers with SAP – Global ERP Leader

SAP Education at JSPM University Pune

SAP, founded in 1972, the world's largest business applications (ERP) software company, supports the education industry all around the world in many ways. Indian IT industry is currently playing very important role in universities and educational institutions across the length and breadth of the country to make students industry ready. JSPM university Pune realizes the need for ensuring that this talent must be ready to effectively carry out organizational responsibilities as soon as they graduate out of college and ensure that students excel in most of their competencies while also preparing them for challenges that lie ahead.

As an SAP Student Academy and part of the SAP University Alliances Program, JSPM University offers students direct access to:

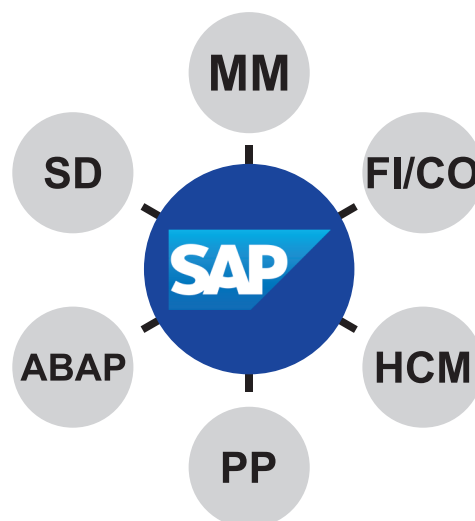

- SAP Learning Hub
- SAP-certified global training content
- Integration-centric learning via S/4HANA modules
- Hands-on practice with dedicated SAP labs and servers

About the PGDERP Course

The course contents are designed to cover fundamentals of ERP systems and the importance of integrated information systems in an organization to improve their productivity. The focus of this course is on illustrating various business processes like procurement, production, sales, finance, cost accounting, and HR using ERP solutions. Along with individual business processes, the focus is on integration of different business processes. A new approach to this course is tailor-made for freshers and working professionals looking to make a rewarding career in ERP space.

This “New Spin on Manufacturing” is designed to broaden and deepen the skills, knowledge, and expertise especially for candidates aspiring for a career as ‘Techno-Functional’ consultant in the field of ERP.
